Achievements of 1924

"I want to see Edmonton the big-  
gest grain centre in the west, not ex-

Blatchford, when asked as to his de-  
sires concerning the grain market in  
this country.

"When seeking election last year,  
I laid down a clear platform and  
the low point of the platform was  
not what I was going to be up  
against when I assumed office. Under  
no consideration would I want to be  
up against a grain market which I  
did not understand and did not  
know the details of. The fact of the  
matter is that I am not up against  
a scapegoat for others."

"I am in strengthen the circumstances  
of the grain market, the former trea-  
surer underlined.

"My every effort will be directed  
to securing for the city an ade-  
quate grain market, and I am con-  
cerned concerning the

Mayoralty.

## DR. ALEXANDER TELLS OF TRIP

Rotarians Hear Dr. W. H. Alexander Tell of Ancient Greece

The ancient Isle of Greece, Athens and Crete and all the wonders and incidents of the life of the Greeks, the arts of culture, were graphically described yesterday by Dr. W. H. Alexander, who addressed the Rotary Club at the weekly luncheon in the Masonic Temple. The professor of Classics at the University of Alberta, has recently returned from a tour of Europe, the tour including a world romance, and enthralled with words and pictures, enthralled the audience in his appropriate descriptions and apt comment.

Costumes, the theatre, the theatre, the art of what peace and contentment consists, the beauty and peacefulness of the ancient empires of Greece, Italy, and the like, the Naples, Vesuvius, the more well known places of the Mediterranean and the like, all share of attention in the travologue.

DOCTORS ASK CHANGES  
IN COMPENSATION ACT

Premier Greenfield yesterday received a deputation of the medical profession which placed before him grievances and asked a greater extension of the Workmen's Compensation Act, which was recently passed, and suggested to the premier that a permanent official be nominated by the medical profession should be appointed to the board.

The doctors asserted that a considerable amount of unnecessary expense was caused between the medical profession and the officials of the board, and considered that a permanent official would eliminate this factor.

The doctors pointed out the present trouble.

CARRIED EXPLOSIVES  
IN BAGGAGE IS FINED

Fred Schreiber was fined \$10 and costs at the Provincial Court yesterday for carrying explosives in his baggage without having a permit.

A C.P.R. police officer said that a permit is necessary to take this country from the United States that on October 28 smoke was seen from the chimney of the Canadian Lethbridge station. An examination of his baggage showed that the cartridges were found in close proximity to a large box of matches. By some means the cartridges had been ignited and the part of the truck was taken off. The officer said that he was not sure that it was not desired to inflict a heavy penalty in this case, but thought that the man should not be allowed to carry explosives in his baggage without having a permit.

**WHAT ABOUT EXPENDITURE?**  
Mr. Fiske, leader of the opposition, says that the government will be heard from at next session of Parliament demanding more reductions in the budget.

There will be little cause for popular alarm if the demands do not meet with immediate compliance, as the opposition's main contention was that the country had hard times ahead in readjusting its business to the change.

Tariff "linking" as it is known, will be the main issue, the more so as it has to pass with it. Any change would have been unwelcome, that could be looked for at this time of year. And the change could easily have been to something that still leaves a margin for the government.

Ontario usually gets about this time of the year what would have given more reason for the protests. It is not on the record that a cold November in this part of the world has been followed by a remarkably warm December.

The progress therefore is far from

one of the "old-fashioned" type that people like to talk about as something distant and not likely to return. With the river frozen early in November and streets refrozen when the weather turned, the snow will be as well to climb the Gulliver, put on the storm windows, and settle down in the regular winter program.

**PROTECTOR TOO MUCH.**

Mr. Darrow, who was the slayer of the Franks boy at Chicago from the gallows, seems to think that some defence or explanation is due to the world for the part he took in that terrible crime. He has been in Canada, has been expounding frequently of late the subject of capital punishment as the natural and preventive of crime. His latest bid for immunity from criticism that he may be right, is to say that he is a criminal lawyer in presuming too much upon his powers to sway the jury. He will have difficulty in getting any considerable section of the same-minded portion of the public to accept any such defense.

He is not the only one to do this, a man who has killed another, and who will probably kill more if he is not arrested, and whose example will not be an inspiration to other criminally inclined persons if he is not given the maximum sentence. The only other inoffensive people appear to have to protect themselves! Is a murderer the only person in the community who has any rights? That is what Mr. Darrow's argument amounts to. He would not have held his position so long if he had tried to fit in with the general understanding that a lawyer is not to be held personally accountable for the consequences when he defends even a client who little deserves defense. When he did not insist the right of the public to hold murderers in high esteem, he was the odd one.

What funds can be raised to suppose that Chinese armies can be together, in support of any cause or leader. There is no such thing as stable or responsible authority above which these people can stand. They are the only ones who can rally and suppress the Chinese rebels. Faction rule is the law of the land, and likely to be until some adventurous success in crushing his rivals and making himself the more or less generally admitted master of the situation.

White funds can be raised to suppose that Chinese armies can be together, in support of any cause or leader. There is no such thing as stable or responsible authority above which these people can stand. They are the only ones who can rally and suppress the Chinese rebels. Faction rule is the law of the land, and likely to be until some ad-

venturous success in crushing his rivals and making himself the more or less generally admitted master of the situation.

The condition is that the Manchu dynasty was overthrown and an attempt made to introduce the western system of government before the mass of the people were prepared for the change.

Almost any kind of a government would have been better than the old regime may have been. It provided at least machinery for administration of what went for law, and a measure of protection to those who saw fit to carry favor with it. China is not the only country in the world where the only person who has any rights is the one who has the most.

Mr. Darrow's argument amounts to this: when the old regime was overthrown, it was the only one that could, thanks largely to the attempt to establish self-government among people who had not yet learned how to govern themselves.

## THE FAMOUS PROFIT

Toronto Mail and Empire

In Canada, the cost of living has not been as great as that of 1923, but it has been higher than the cost of living in the United States, a large proportion will be exported. When the non-resident fails to pay the bill, the municipality from which he comes cannot afford to pay it, and the government will not foot the bill. The local taxpayers in such cases have to stand the loss. In the present year the city hospitals at Edmonton are being run at a loss of \$40,000, which must be taken care of by the city. There is a good chance of getting a good, reasonable expense of treating people from outside points. That cannot go on. Edmonton people are bound to take care of themselves, but they cannot be expected to do so, because the hospital service is not available, much as they might wish to do so rather than refuse treatment to sick or injured people. This is not however a matter of charity toward the sufferer, but of a matter of being imposed upon by the taxpayer, who is not in a position to do so.

**CONS. AND COMMERCE**  
London Daily Mail

It will be good news in the language of the city and of the other cities that have been burdened with a heavy burden of maintaining hospitals whose services were equally available to non-residents. When the non-resident fails to pay the bill, the municipality from which he comes cannot afford to pay it, and the government will not foot the bill. The local taxpayers in such cases have to stand the loss. In the present year the city hospitals at Edmonton are being run at a loss of \$40,000, which must be taken care of by the city. There is a good chance of getting a good, reasonable expense of treating people from outside points. That cannot go on. Edmonton people are bound to take care of themselves, but they cannot be expected to do so, because the hospital service is not available, much as they might wish to do so rather than refuse treatment to sick or injured people. This is not however a matter of charity toward the sufferer, but of a matter of being imposed upon by the taxpayer, who is not in a position to do so.

**THE SHADOW OF THE SOVIET**  
London Times

The government party with which Mr. Macdonald's government made its strange term is the Union of Soviet Socialist Republics. It is a friendly international and aims at internationalization of the world, and to a certain extent and far, tar-

to recognize this term. It is a man of the world, and the government will have to be paid, in future either by the municipalities concerned or by the province or city hospitals will have to be run on the principle that cutbacks can be adjusted out of other departments. It is in view who is confronted with that alternative, that the Government has consented to do justice to the city taxpayers in what measure remains to be seen.

## SOMETHING LIKE WINTER.

People hope that Alberta was to be favored with another mild winter have been badly foisted during the last week. The most resolute champion of our matches claim that the weather has gotten worse than the snow mark, and then there is the general dissatisfaction. Interest in the subject does not however bring upon the pronouncements of the thermometer. The weather is cold when it feels cold, whether the apparatus hanging on the wall is right or not. The sun is not the golden pinches into winter, rather than the degree of coldness, which caused the general complaint. For weeks on end Alberta was favored with a fine fall weather as could be imagined. The greater the blizzard, the more the people, the more they hate to part with it. Any change would have been unwelcome, that could be looked for at this time of year. And the change could easily have been to something that still leaves a margin for the government.

# Only Four Points Separate Old Country Soccer Teams

## NOTTS COUNTY NOW LEADING

Leaders Will Have Real Fight Saturday, When They Play Aston Villa

## HUDDERSFIELD CLIMBS

Feature Scottish Match Tomorrow Will Be Rangers Vs. Hibernians

LONDON, Nov. 13.—Canadian Press Cable)—With four points each, separating the first twelve teams in the first division in the English League, the battle for the title is now as small as ever. In fact, so close are these dozen clubs it is safe to say that any one of them might win. At the moment Notts County lead the table, then comes Huddersfield, West Bromwich and Sunderland complete the sextet of leaders. Huddersfield is climbing into third place from eighth with a game in hand.

Their opponents have been a tremendous disappointment to their supporters, but the Huddersfield men feel the club will be able to avoid some of the way of the Wednesday. They have won only one of their last ten games and are among the three teams that have not yet acquired double figures in the aggregate points, Burnley and Preston North End, being the others.

Huddersfield Town are slated for a tilt with Bolton Wanderers, and it is expected that the Huddersfield men will be able to do well. They are to play at Liverpool at Burnley; Arsenal at Everton; and at the United States Notts Forest at Preston; Manchester City at Sunderland; Blackburn Rovers at St. John's and West Ham at West Bromwich.

Bury, last year's second division champions, travel to Wales where they will take on Cardiff City. Other games are to be played at Liverpool; at Burnley; at Preston; at Manchester City; at Sunderland; and at West Ham. The points which were lost to them a few weeks back.

In the past it has been the rule to issue playing certificates to clubs at certain times, but the League has decided that they should be issued to all clubs.

O.H.A. clubs are reminded that the certificates must be issued to all players must have amateur cards and playing certificates will not be issued.

The recommendation of the subcommittee on amateur cards by the league clubs in Toronto in the senior series was endorsed.

# MARKETS--FINANCIAL AND FARM NEWS

## WHEAT MARKET VERY BULLISH

Canadian Government Wheat  
Estimates Reduced—  
Prices Rise Steadily

### TRADING IS ACTIVE

Exporters, Millers and Ship-  
pers Buy Large Amounts of  
Wheat

WINNIPEG, Nov. 13.—Sharp  
bought wheat in large quantities in  
the market on Friday, which  
reduced the previous estimate of  
wheat production to 1,100,000,000  
bushels, while the previous estimate  
was 1,095,000,000 bushels. The  
market was the highest since the  
start of the year, touching \$1.69 1/2 c. to \$1.74 1/4 avos.  
Wheat prices have been steadily  
reduced slightly, but the close  
was at a new record high, with a  
gain of 4 1/4 c. December 4 and a  
gain of 2 1/4 c. Course grain was  
also at a new record high, with a  
gain of 4 1/4 c. Liverpool cables closed 3 1/4 to  
4 1/4 c. to \$1.74 1/4 avos.

The wheat market was very  
active with a large trade  
working in and out. Wheat  
buyers were all good buyers, but the  
outlook was not so good as  
for some time which helped  
to cause "sharpening" to  
rise. There were some heavy  
trading by "longs" on the bull side  
and by "shorts" on the bear side,  
but all offerings were easily  
absorbed.

The government crop report  
on wheat was very bullish and had  
an immediate effect on the wheat  
grains which fluctuated from 1 1/2 to  
2 1/2 c. to 3 1/4 c. The market  
eased off slightly. Bullish reports  
from the market sent out by the  
outlook on wheat were all good, but  
the market was not so good as  
for some time which helped  
to cause "sharpening" to  
rise. There were some heavy  
trading by "longs" on the bull side  
and by "shorts" on the bear side,  
but all offerings were easily  
absorbed.

A moderate demand continues  
for wheat, with a good demand  
from grain elevators, millers and  
shippers, but a good demand  
from grain elevators, millers and  
shippers continues to display keen  
interest in the market.

Local creamerymen report that the  
receipts of cream have been gradual-  
ly reduced during the winter, and  
that the heavy cream is expected in  
the spring.

The weather was a fairly heavy drop  
followed by the first heavy snow storm  
of the season, and the weather was  
so bad that it was difficult to  
get any pick up. Up until the cold  
weather came on, at least for the  
past month, the weather was  
heavy, falling off due to the  
fact that the pastures were getting  
very short.

The feed situation throughout most  
parts of central Alberta is now too  
bad to be able to get any reliable  
reports from farmers. It is the  
consensus of the farmers that in  
most cases there was such a short period  
of time between the heavy rain and  
harvest that farmers were  
unable to get any good quality  
stock. In other cases the heavy rain  
brought large quantities of hay before  
the market.

Report from farmers indicate  
that cattle are being raised to  
market by farmers who are of the  
opinion that the market is not  
sufficient and that they will not have sufficient  
funds to get the cattle to market.
